mythnettv file boingboing.xml "Boing Boing"  
mythnettv statistics  
mythnettv download 1

---

mythnettv url ... "Boing Boing"

---

mythnettv list  
mythnettv subscribe <http://feeds.feedburner.com/AskANinja-WMW> "Ask a Ninja"  
mythnettv update  
mythnettv list  
mythnettv statistics  
mythnettv download 1 "Ask a Ninja"

---

mythnettv unsubscribe <http://feeds.feedburner.com/AskANinja-WMW> "Ask a Ninja"  
mythnettv list  
mythnettv download 1 "Ask a Ninja"

---

mythnettv download 1  
mythnettv download 1 "Boing Boing"  
mythnettv download 1 ".\*Playing.\*"

---

mythnettv markread 10  
mythnettv markread 10 "Boing Boing"  
mythnettv markread 10 "Boing Boing" ".\*Playing.\*"

---

mythnettv todoremote <http://mirror.linux.org.au/linux.conf.au/2008/Thu/mel8-114.ogg>

Title: linux.conf.au 2008

Subtitle: Memory efficient websites

Description: <none>

---

mythnettv importtorrent ...

---

mythnettv importmanylocal /data/la-mirror/linux.conf.au/2008/Thu/\*.ogg "linux.conf.au 2008"

---

mythnettv archive "Boing Boing" /data/archive/

---

mythnettv category "Boing Boing" General (this is the one used for parental controls)

mythnettv group "Boing Boing" Australia (this is the one used for playback groups)

---

mythnettv http\_proxy ".\*\..au" aussieproxy.stillhq.com:3128

---

### Other flags

- --help
- --noprompt
- --nopromptforannounce
- --defaultuploadrate
- --uploadrate
- --nocommflag

### Other thoughts

- You can turn off prompting with `-noprompt`
- Attempts are rate limited to once an hour (`--force`)
- You can fetch only new with `-newestfirst` or only old with `-oldestfirst`

### MythTV book

- Focus on Ubuntu, with instructions on MythBuntu as well
- Authoring process
- Current state
- Please help
